

Privacy Policy for Solmeme Society

Last Updated: August 15, 2026

This Privacy Policy describes how Solmeme Society (“we”, “us”, “our”, or the “Bot”) collects, uses, stores, and protects information when you interact with the Solmeme Society Discord bot (and any related Telegram or X integrations).

By using or interacting with Solmeme Society, you agree to the practices described in this Privacy Policy. If you do not agree, please do not use the Bot.

1. Information We Collect

We collect only the minimum data necessary to operate the Bot and provide its features (tipping, internal ledger balances, deposits/withdrawals, and related services).

Data we collect and store:

- Discord User ID (and equivalent IDs on

Telegram/X if used)

- Discord username / display name (and equivalents on other platforms)
- Server (Guild) ID and Channel ID where the Bot is used
- Tip, deposit, withdrawal, and internal ledger transaction history associated with your User ID
- Public wallet addresses you voluntarily link or use for deposits/withdrawals
- Command usage and interaction logs (command name, timestamp, server context) for debugging, abuse prevention, and service reliability
- Basic preferences or settings you configure with the Bot

Data we do NOT collect:

- Private keys, seed phrases, or any wallet recovery information

- Discord message content outside of direct interactions with the Bot (e.g., slash commands)
- Email addresses, phone numbers, real names, or government IDs (unless you voluntarily provide them for support)
- IP addresses or device information from Discord itself
- Presence, online status, or voice activity data

2. How We Use Your Information

We use the collected information solely to:

- Provide and operate the tipping, ledger, deposit, and withdrawal features
- Maintain accurate internal balances and reconcile with on-chain activity
- Prevent abuse, fraud, and violations of our Terms of Service
- Improve reliability, debug issues, and

monitor system health

- Respond to support requests
- Comply with legal obligations

We do not sell, rent, or trade your personal data.

We do not use your data for advertising or to train third-party AI models.

3. Data Storage and Security

- Data is stored on secure servers (VPS or cloud infrastructure) with encryption at rest and in transit where applicable.
- Access is restricted to authorized operators on a need-to-know basis.
- We implement reasonable technical and organizational measures (access controls, monitoring, backups, and the security practices described in our architecture) to protect against unauthorized access, loss, or alteration.

- Public blockchain data (wallet addresses and on-chain transactions) is inherently public and cannot be made private once written to the chain.

We cannot guarantee absolute security, but we take protection of user data seriously.

4. Third-Party Services

The Bot relies on third-party services to function. These parties process data according to their own privacy policies:

- Discord (and Telegram / X if enabled) — platform on which the Bot operates
- Blockchain RPC and infrastructure providers (e.g., Helius, Alchemy, and similar) — for on-chain reads, writes, and event notifications (webhooks)
- Hosting / database providers for the Bot's servers and ledger

We only share the minimum data required for these services to operate. We do not control how these third parties handle data once it reaches them.

On-chain transactions (deposits, withdrawals, tips settled on-chain) are recorded on public blockchains and are permanently visible.

5. Data Retention and Deletion

- Active account and ledger data is retained as long as needed to provide the service.
- Command and interaction logs are typically retained for a limited period (e.g., 30–90 days) for debugging and security, then deleted or anonymized.
- You may request deletion of your Bot-associated data (subject to legal retention requirements and the public nature of blockchain records).

To request access, correction, or deletion of your data, contact us at the email below. We will respond within a reasonable timeframe.

6. Your Rights

Depending on your location, you may have rights to:

- Access the personal data we hold about you
- Request correction or deletion
- Object to or restrict certain processing
- Data portability (where applicable)

Contact us to exercise these rights. Note that some data (especially on-chain records) cannot be deleted.

7. Children's Privacy

Solmeme Society is not directed at children under 13 (or the applicable age in your

jurisdiction). We do not knowingly collect personal information from children. If we become aware that we have collected such data, we will take steps to delete it.

8. International Users

Data may be processed and stored in locations outside your country of residence. By using the Bot, you consent to this transfer.

9. Changes to This Privacy Policy

We may update this Privacy Policy from time to time. The “Last Updated” date at the top will reflect changes. Continued use of the Bot after changes constitutes acceptance of the updated policy. Significant changes will be announced where practical (e.g., via the Bot or our Discord server).

10. Contact Us

If you have questions about this Privacy Policy or wish to exercise your data rights, contact us at:
